### HEALTH & SAFETY

At UKS we ensure that all our staff & sub contractors are fully aware of their duties and obligations to their own safety and the wellbeing of those around them. A rigorous selection and vetting scheme is applied to sub-contractors and induction / training criteria for their operatives are identical to ensure standards are uniform with those applied in-house. Our objective is to deliver 100% satisfaction with our Health & Safety performance from receipt of order right through to completion.
